Configurazione della Sessione

The screenshot shows the 'Session preferences' dialog box for a session named '<MY_SESSION_NAME>'. The 'Session' tab is selected. The 'Session name' field is highlighted with a red rectangle. Below it is a section for changing the session icon, featuring a default icon of a dog and the text '<< change icon'. A red arrow points from this text to the 'Session name' field. The 'Server' section contains fields for 'Host' (set to '<VM_NAME>.cloud.ba.infn.it'), 'Login' (set to '<USERNAME>'), and 'SSH port' (set to '22'). There is also a field for 'Use RSA/DSA key for ssh connection' (set to '<PATH_TO_PRIVATE_KEY>') with a file selection icon. Below these are two checkboxes: 'Try auto login (ssh-agent or default ssh key)' and 'Use Proxy server for SSH connection'. The 'Session type' section has a dropdown menu set to 'KDE' and a 'Command' field. At the bottom are 'OK', 'Cancel', and 'Defaults' buttons.
